Objective of the HULTPRIZE UDSM Challenge 2018/19

Generally speaking, the challenge aims at creating the best engine of social entrepreneurs worldwide by inspiring and motivating youth to engage themselves in social entrepreneurship in which they can turn social challenges into profitable ventures and be able to earn income and create jobs for others.

Specifically, this year's competition aims to have students "Create a venture or a business idea that will provide 10000 meaningful jobs to youth within the next decade".

The winner of the intra-campus event will automatically advance to compete in one of fifteen regional finals happening around the world. In our case the winner will proceed to Nairobi in March 2019. The winners from Nairobi will proceed to a summer business accelerator in UK in July 2019. One winning team from each host city will then move onto a summer business accelerator, where participants will receive mentorship, advisory and strategic planning as they create prototypes and set-up to launch their new social business. A final round of competition will be hosted in September, where the winning team will be awarded the \$1,000,000 prize.

“The Hult Prize is a wonderful example of the creative cooperation needed to build a world with shared opportunity, shared responsibility, and shared prosperity, and each year I look forward to seeing the many outstanding ideas the competition produces” (Former US President Bill Clinton).
